SUBJECT:

7/5/84 EEA

I phoned Dr. David Williams (214/937-1210) to inquire as to the current status of Dr. Williams said he last saw on 10/19/83 at which time he "seemed to be doing pretty well." ad been on Dyazide and on Dilantin and Thorazine (for hallucinations and schizophrenic symptoms). His mental state seemed good and he was getting around, as usual, on crutches.
